Product specification

Product: Schwefelschnitten (sulphur strips), Art.-No. 5874 ff.

Description

- Sulphur-containing strips for the disinfection of wooden barrels during vinification
- Appearance: greenish or bright yellow stripes (22cm x 3cm x 0,5mm)
- Weight 6,5 ± 0,5g apiece
- Odor: characteristic for sulphur

Slight differences in colouring and weight result from production-related variations in the carrier material and have no influence on the quality of the sulphur strips or the smoke produced during burning.

Composition

- Sulphur (%): 75
 - Carrier material (%): 25
- Components of the carrier material: glass fibre, cotton, cellulose

Average metal content:

- Iron (ppm): <5
- Arsenic (ppm): <1
- Copper (ppm): <1

The sulphur contained therein meets the requirements of the US Code of Federal Regulation of the FDA, Title 21, Part 177.

Instructions for use and dosage

- 10±1g SO₂ are produced during the complete combustion of a sulfur strip.
- For the medium treatment of a 225 litre barrique, 1-2 strips are required.

Explanations

The Product

- does not contain any genetically modified (micro)organisms or components and is not produced with the help of genetically modified (micro)organisms,
- does not contain any substances of animal origin or ethanol,
- forms sulphur dioxide when used.

The packaging materials used in direct contact with the product comply with the requirements of EU Directives 10/2011 and 1935/2004 on foodstuffs.
